

## Step 4

+ Lock the system at the hips.

+ Adjust the tension of the springs using the straps positioned on each side of the belt.

Remember to unlock the system when assistance is not required.

- User's manual -

## Step 1

- + Put it on like a backpack.
- + Then hook the clip on at the chest.

## Step 2

- + Fasten the seat belt.
- + Using the strap, tighten it slightly, then put it back in the pocket.

## Step 3

- + Put the sleeve on the thigh.
- + Fasten it with the Velcro fastener.
- + Hook up the strap and stretch it slightly.
